PACIFIC SQUADRON EXPECTS ATTACK

Russian Ships On Lookout For Japanese War Vessels.

CZAR'S SHIPS EXAMINED BY JAPS

Japanese Find Some Russian Cruisers that Had Not Been Accounted for. Other Items of Interest Concerning the War in Far East.

London, Jan. 13.—According to the Daily Mail's Port Louis correspondent, Rear Admiral Voelkersam, commanding the second division of the Russian second Pacific squadron, has stated that he expected to be attacked by the Japanese in the Indian Ocean. He thought that the Baltic squadron would call at Maho, in the Zichilles group.

The Russian tug boat Hussi, according to the same correspondent on Jan. 4, made an enormous purchase of provisions at Tamatav. It is reported that the Russ had a double crew of Russians and Germans. According to the necessity, the vessel is sometimes Russian and some times German and the sailors in turn become crew or passengers.

Tokio, Jan. 13.—Commander Thaka, of the Japanese naval staff, detailed to examine the Russian war vessels at Port Arthur, reports on the condition of the protected cruisers Djidjid, Razboynik and Zeabika, heretofore unaccounted for. The Djidjid is in a small inlet east of the torpedo store house inside the west harbor. Her three masts are above water. Evidently she was sunk in the channel at the entrance of the harbor. It is believed the Russians sank her.

The Zeabika is sunk in the west harbor about 300 yards southeast of the bend of the Tigers Tail peninsula. Her masts and funnel are visible. Evidently she was destroyed by shells fired after the Japanese captured Wolf Hill. The torpedo boat destroyers Retvet Silni and Bezuyretchni are beached, and destroyed near the torpedo store house pier. The torpedo boat destroyers Storozhelvoi and Razyaschtehi are a thousand yards west of that point. The torpedo gun boats Posadnik and Galdamak were set on fire and sunken nearby.

Besides the above, the Japanese are searching for one torpedo boat destroyer which is still unaccounted for.

Tokio, Jan. 12.—Noon.—The Japanese war office has notified American Minister Griscom that it will be pleased to permit General MacArthur and one aide-de-camp to accompany the army of Japan in Manchuria. At present two British generals are accompanying the troops, and satisfaction is expressed at America's action in also sending an officer of such high rank.

Suez, Jan. [illegible] the second division of the Russian squadron, commanded by Rear Admiral Voelkersky, arrived here today from Port Said.

Much Damage by Rains.

Phoenix, Ariz., Jan. 13.—Light rain continues to fall at intervals, adding to the already flooded condition of the country. Much damage has been done to farm crops and irrigation ditches through broken banks. One flood crossed the west side of Phoenix, surrounding many houses with water, but doing little damage excepting to the little colonies who lived in tents in the suburbs and who had to be carried from their beds which were surrounded by water. Some of them are very ill, and the experience may prove fatal in one or two cases.

Farmer Commits Suicide.

Milton, Ky., Jan. 13.—J. A. Bowman, one of the best known farmers of Trimble county, committed suicide. Mr. Bowman mounted his horse and started for Hunters bottom. About a mile out of town he dismounted. Going out on the ice, Mr. Bowman broke a hole and crawled into the water, drowning himself. The horse proceeded, riderless, to the Bowman home.

NEWS FROM NATIONAL CAPITAL.

Swayne Charges In House—Smoot Trial In Progress.

Washington, Jan. 12.—The articles of impeachment upon which Judge Charles Swayne, of the northern district of Florida will be tried by the senate "for high crimes and misdemeanors in office," were brought up in the house today immediately after that body convened.

Mr. Palmer, of Pennsylvania, chairman of the committee of seven, appointed by the speaker to prepare the case against Judge Swayne, explained that the majority of the committee had reached their conclusions after most painstaking deliberation and it remained for the house itself to take such further action in the case as it migt deem proper.

In the Senate.

Immediately after the senate convened today Mr. Gallinger, from the committee on commerce, reported back the merchant marine commission's ship subsidy bill, and said the committee would file the report of the committee as its own.

Mr. Berry stated that a minority if the committee opposed a favorable report.

The Smoot Trial.

The defense in the Senator Smoot investigation before the senate committee on privileges and elections today called to the stand "F. H. Holsheimer, a practicing lawyer of Pocatello, Idaho." He lived in Utah about 20 years before going to Idaho two years ago. He belongs to the Episcopal church, and said he always had been a Democrat, except for a time in Utah, when, in common with all Gentiles, he belonged to the Liberal party.

The examination of Mr. Holsheimer was confined almost entirely to political conditions in Idaho. He was a member of the last convention which adopted an anti-Mormon clause and was a member of the resolutions committee.

Afterward he was nominated by the convention for congress, but declined to run because the party leaders had refused to conduct a campaign directed against the Mormon church. The leaders, the witness said, called their plan a campaign of purification of Idaho homes.

INSPECTORS ARE TRANSFERRED.

Postmaster General Wynne Issues an Important Order.

Washington, Jan. 13.—Postmaster General Wynne has issued an order transferring the entire corps of postoffice inspectors from the jurisdiction of the fourth assistant postmaster general and placing them imediately under the postmaster general.

This action is taken on the ground of subserving the best interests of the government and also is based on the fact that the inspectors of the other executive departments are directly under the head of the department. The order is effective next Monday. It affects over 200 men, scattered over the country. The order is one of the most important issued by the postoffice department for a long period, and may create significant developments.

Fourt Assistant Bristow, who is strenuously opposed to the transfer, has given definite expression of his opposition, and made efforts to avert the transfer.

FIVE MEN MET VIOLENT DEATH

Monroe County, Alabama, Suffers from Reign of Outlawry.

Selma, Ala., Jan. 13.—A double duel in which all four participants were killed and a negro man found murdered is the story of crimes which occurred near Beatrice, in Monroe county Tuesday. Two men near that place had fallen out about a woman and mutually agreed to settle matters according to the code dual.

People attracted by the shots found both negroes dead. Tuesday night two white men named Doe Clancy and Bob Smith attended a negro dance, and during the evening they got into a dispute which terminated by both pulling pistols and firing. When the negroes in the house quieted down after the shooting they found both of the men dead.

The fifth violent death was that of an unknown negro, who was found Tuesday on the side of the public road with a bullet wound in his head.

SUGAR LADEN SHIP GOES ON THE ROCKS

A Tramp Steamer Runs Ashore On Fire Island.

LIFE-SAVERS TO THE RESCUE

Rain Is Falling and a Dense Fog Is Settling Over the Ocean—Vessel Carried No Passengers, Being a Freighter—Efforts to Float her.

New York, Jan. 12.—4:50 a. m.—Signals of distress guns and rockets have been fired by the steamer ashore on Fire Island beach. Life-savers are now on the way to the scene.

There has been considerable increase in the wind and the Observers at Fire Island believe a bad storm is not far off.

Rain is now falling and a dense fog is settled over the ocean.

While feeling her way through the dense fog early today in an effort to reach the port, a sugar laden steamer Indus from West Indian ports struck Fire Island bar and is now stuck hard and fast. Just how serious is her position has not been determined, although the Fire Island life-savers reported, after a visit to the stranded vessel that she was in no immediate danger. She was lying in an easy position, and the water there was smooth. A dense fog is hanging over the ocean, however, and the wind showed a tendency to increase in force. A strong wind and high seas would make the situation extremely serious, the life-saver said.

Efforts to float the Indus were begun immediately after she struck the bar, and as soon as communication with the shore was had the captain of the steamer asked that tugs be sent to his assistance.

The Fire Island life-savers who went out to the Indus were unable to get any material assistance and returned to shore.

The Indus has no passengers. She is a tramp steamer owned by James Nourse, limited, of London.

On this trip she was bound from Havana for New York with a cargo of sugar.

The Indus is a new vessel, having been built in Glasgow only a year ago. She is 350 feet in length, of 2,100 tons burden, and carries a crew of 25 men. Her commander, Captain Kydd, was making his firs ttrip.

IN A BOX CAR FIFTEEN DAYS.

Thugs Cuts Man's Throat and Put Him Freight Car to Die.

Corpus Christi, Tex., Jan. 13.—Having been 13 days without food or water, with his throat cut from ear to ear, Noah F. Baten, an artesian well contractor, still has good chances of recovery.

Christmas day Baten came to town, drew considerable money and got drunk. Tuesday night, Dec. 27, he disappeared and there was no trace except a large pool of blood where he had been seen sitting in a doorway.

Foul play was suspected and an arrest was made. The bay was dragged and every place within the city where a body could have been concealed was searched, and officers from other towns came to assist.

Fifty Bales of Cotton Burn.

Westminster, S. C., Jan. 13.—Georgia is no longer ahead of South Carolina on the cotton burning question. The people of Westminster were very much excited over the burning of 50 bales of cotton early Wednesday. Two car loads of compressed cotton containing 50 bales each took fire in transit from Mississippi north, the cars being set off at this point. One car and its contents were completely destroyed.

Stockgrowers In Session.

Jacksonville, Fla., Jan. 13.—The Southeastern Stock Growers' association met here Wednesday. The time of the association was devoted to reading papers and a discussion of the condition of the cattle industry. It was universally agreed that the raising of better breeds and greater care of cattle was necessary. The convention will assemble again.

BIG RUN ON GOTHAM BANK.

Depositors In Line All Night—Officers Say Bank Is Solid.

New York, Jan. 13.—Throughout the freezing rain last night and a heavy fog today a score of depositors waited at the doors of the State bank on Grand street to head the line when the run on that bank was resumed today.

For two days the frightened Hebrews of the East Side have been engaged in a frenzied rush for no other apparent reason than that they saw a rush of depositors to place their money in the bank. When the bank was opened for business today the number of those waiting to withdraw their deposits had increased to 200 of whom four-fifths were women. Apparently it is the women who are keeping up the run and in the big crush yesterday they predominated. A detail of policemen was on duty at the bank all night and twenty fresh men were sent there early today.

Cashier A. I. Voorhees said today that the bank paid out $85,000 yesterday and that he believed the excitable Hebrews would begin to "come to their senses today and see the foolishness of the run; realizing that the bank is financially strong and will meet every demand promptly, no matter how prolonged the run."

TO RUN TRAINS BY 'PHONE.

Baltimore and Ohio Preparing to Change Despatching System.

Pittsburg, Jan. 13.—Trains on the Baltimore and Ohio system will be operated by telephones in the near future. Such a plan is rapidly being put into execution on all the divisions of the system, and the managers have ordered the officials to avail themselves of this valuable auxiliary.

A conference of the dispatching forces was held in Baltimore and a set of rules and forms arranged so as to reduce the method of handling the trains by telephone to a standardized system. Charles Seldon, superintendent of telegraph, presided at the meeting.

Circuits have already been established between many cities.

FIREMEN INJURED IN BIG FIRE.

One Man Is Seriously Hurt—Loss Is About $200,000.

Chelsea, Mass., Jan. 13.—Henry Grigsey, a local fireman, is at the hospital in a dangerous condition, several others were more or less hurt by smoke and falling glass and a loss of $200,000 was caused by the fire which raged for more than three hours in the center of this city early today.

The Academy of Music block, a 4-story brick building on Broadway, was ruined and the hoted Savoy adjoining was badly damaged.

The constant rattle of exploding cartridges in a hardware store of the street floor of the academy of Music block aded to the excitement and danger.

POLICE SUPPRESS UPRISING.

Several Were Killed and Wounded by Officers in Spain.

New York, Jan. 13.—The action of the police in suppressing demonstrations against the Octroi in Cadiz Tuesday when several were killed and wounded, has aroused excitement throughout Spain, according to a Herald dispatch from Madrind.

Three men are dead and a fourth cannot recover. The entire populace attended the funeral of one victim.

Those arrested were set at liberty; nevertheless, the police fear to appear in the streets, and private civil patrols are guarding property.

Manifestations against the Octroi are spreading in all the cities of Spain.

Report on Irrigation.

Washington, Jan. 13.—The census bureau has issued a report on the condition of irrigation in the United States in 1902 showing that 33,415 systems with 59,311 miles of main canals and ditches were irrigating 9,437,071 acres on 134,036 farms. The amount expended in constructing all these systems was $83,320,452. The report says that the great obstacle to the development of irrigation in Texas and New Mexico is the present treaty between Mexico and this country which prohibits the impounding of the waters of the Rio Grande.

WRECK CAUSED BY HEAVY RAIN FALL

Train Going 30 Miles An Hour Runs Into Washout.

PASSENGER AGENT IS KILLED

He Was Riding on Engine Inspecting Road—Engineer and Fireman Were Badly Scalded—Porter Seriously Injured and May Die.

Mobile, Ala., Jan. 13.—Passenger train No. 4, northbound, which left Mobile over the Mobile, Jackson and Kansas City railroad at 6:47 yesterday afternoon, ran into a washout 4 miles south of Beaumont, Miss., and the engine, baggage and passenger coaches were overturned.

General Passenger and Freight Agent L. B. Sullivan, who was riding on the engine, was instantly killed.

Engineer W. A. Crawford and Fireman J. Young, negro, both of Mobile, were seriously scalded.

R. G. Boykin, porter, of Mobile, was seriously injured and may die.

Mr. Sullivan was on an inspecting trip over the road and this was the reason he was riding on the engine. He was formerly with the Louisville and Nashville in Cincinnati and Mobile in the capacity of chief clerk in the office of the general freight agent. Four years ago he went with the Mobile, Jackson and Kansas City. He was 32 years old and leaves his mother and a sister in Trenton, Tenn.

After the wreck the remains were carried to Hattiesburg, Miss., and will be brought to this city this afternoon.

The wreck was caused by heavy rains that fell yesterday afternoon and last night in that vicinity. The train was going 30 miles an hour.

FOUR CREMATED IN WRECK.

Freight Train and Switch Engine Collide on Cotton Belt.

Piggott, Ark., Jan. 13.—Four persons were killed in a rear-end collision between a freight train and switch engine on the Cotton Belt railroad at this place at noon Wednesday. The four who were killed were passengers and were riding in the caboose on the freight train. The caboose was set on fire and the bodies of the victims were burned to a crisp.

The dead:

C. C. Carroll, a traveling salesman, of Waverly, Tenn.

—Poynston, of Greenway, Ark.

J. W. Jinks, a traveling salesman, of Brooklyn, N. Y.

Mrs. Louis Wolf, of Pigott, Ark.

The bodies were burned so badly that they could not be identified, but these four persons were known to be in the caboose and none of them escaped.

SCHOOL BOY COMMITS SUICIDE.

Student of Military School Crazed by Homesickness.

Asheville, N. C., Jan. 13.—The body of O. A. Whitaker, of Paragon, Ind., student at Bingham Military academy, was found today hanging from a tree in Victoria woods.

The coroner's jury returned a verdict of suicide. Whitaker was 22 years old and came to the academy ten days ago. Since his arrival the school authorities state Whitaker suffered from homesickness, and it is thought he committed the deed while under this influence. He left the school at night without permission, and, according to witnesses, was seen pacing the platform of the railway station late in the night.

Porto Rican Girls Discharged.

St. Louis, Jan. 13.—Fifteen Porto Rican girls, who lost their positions with the Twine factory here and are being cared for in the police station, have written to Governor Wintrop, of Porto Rico, telling him of their condition and asking for means to be sent home. The girls say they were discharged. Manager Crosby, of the company, which brought them, with 31 others from Porto Rico, and gave them employment at 50 cent a day and board, says they voluntarily quit their work. The girls are suffering intensely from the cold weather.

WILL MEET THE DEMAND.

Diamond Ice Company Will Erect Fine Plants at Alachua and Starke.

At a meeting of the manager, Mr. Livingston, of the Diamond Ice Co., with the company's stockholders at Alachua, who include the leading merchants and stock raisers in that territory, last week, it was unanimously agreed to install an ice plant at that point at once. This will be a fifteen-ton machine, made by the Columbus Iron Works, and will be the same style and pattern as the one they have here, and will make the same high grade of pure crystal ice. This machine is now ordered and, barring accidents, should be in operation by April—in time for the cantaloupe shipments.

This plant will be known as the Alachua Ice and Packing Co., and will be built and equipped especially for storing and curing all the meats and like commodities slaughtered or grown in that territory.

This plant will sell its ice in the territory from Raiford, east, on the Jacksonville & Southwestern, including Baldwin, Lake Butler, Haynesworth and intermediate points; Suwanee river, west, including Santa Fe, Griffins, Kamoko, Cadillac, Newberry, Younglove and all points beyond, and on the Seaboard from Starke, east, including Sampson City, Clayne, Ward City, La-Crosse, Getzen, into Alachua, and all points west to the Suwanee river, including Hodges, Osceola, Neels, Willeford, Bell and Wannee; on the Atlantic Coast Line from Hague, south to Fort White, north, including Clarke, Wade, Lexington, Victoria and Dutton's, and carload shipments to Crystal River.

As soon as the factory is completed they will put up a similar machine at Starke, twenty miles east of Gainesville. This plant, like the one at Alachua, will be a fifteen-ton machine, and will be thoroughly equipped for curing and storing meats, and in addition will have a "special strawberry cold storage," so arranged as to keep the berries at an even temperature, thus insuring their original fresh flavor and condition until sold. This factory will be known as the Starke Ice and Produce Co., and will sell its ice in the territory between Macclenny and Baldwin, east, on the Seaboard, including Maxville, Highland, Lawtey, Temple, and northwest to Burnetts Lake, including Thomasville, Atlantic, Wainrights and Pine Island, and south including Hawthorn, Rex, Campville, Orange Heights, Melrose.

This plant, being the only one located on the Seaboard, will have entire charge of the carload shipments going to Cedar Key for the various shipping firms there, loading ice direct from its tanks into the Seaboard Air Line cars, thus insuring to the buyers the best possible condition of the ice and the company the minimum cost of handling.

Manager Livingston states that the present capacity of the Gainesville plant will not be increased, as the output is equal to the demand. The capacity of the Gainesville plant is twenty tons per twenty-four hours, which is abundant to supply the demand.

MR. DICKSON TO WED.

Well Known and Popular Traveling Man to Wed Miss Sanderson.

The Sun has received an invitation to be present at the marriage of Alexander McKinnon Dickson and Miss Edna Idene Sanderson, which will occur at Saint Johns Chapel, Jacksonville, on the evening of February 1st.

Mr. Dickson is one of the cleverest traveling men coming this way and has many friends in this section who will congratulate him in advance. Miss Sanderson is a young lady of rare accomplishments; a society favorite in Jacksonville, and is admired by all who know her.

Mr. and Mrs. Dickson will make their home in Gainesville after February 8th, and will no doubt find it very pleasant here.

A Business Change.

There has been an important business change at Bell, J. T. Knight & Co. having bought the interest of Odem & Wilden, who conducted a general store.

Mr. Knight, in a letter to The Sun, states that he proposes to make a specialty of country produce, and will cater to shipments. The firm is located in the heart of a fine poultry section, where chickens and eggs are plentiful, and hopes to build up a a splendid trade.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

A WAR OF WORDS.

Newberry is Ever Gifted With New Sensations.

Newberry, January 13.—The citizens of this town were treated yesterday to the unusual, if unpleasant, sight of a lone, defenseless widow being opposed "emphatically" in her efforts to gain possesion of a piece of property which by long odds belongs to her, even if some small "red tape" formalities have to be undergone before she may have full and unhindered possesion of said property.

It was the case of Mrs. Lillie Kitchen, widow of the late Captain Kitchen, a highly respected lady of this town, devoted to her little girl, deserving and enjoying the sympathy and well wishes of the majority of her fellow citizens.

Her opponents were the Howell brothers, at present occupying the house in question, and who seemed to be radically opposed to her obtaining possession of the house, regardless of the fact that they have no interest in the matter beyond being temporary tenants, and that Mrs. Kitchen was acting under a lawyer's advice.

The controversy, however, limited itself to a wordy war "on the front porch" of the much coveted mansion, and we are glad to say the behavior of the belligerents was mild, principally on the part of Mr. Lute Howell, who, no doubt, realized the delicate position and the advisibility of most considerate treatment of a lady who has had no end of trials and tribulations.

The ever present "side issues" are on hand, last but not least the arrest of "Trapp," a good, harmless colored man employed by J. G. White, accused and arrested "for trespassing" while obeying his master's orders to move Mrs. K.'s furniture into the house in contention.

Of course no intention to trespass can be proven, or any spirit of law broken into, so that this case will undoubtedly be "noll prossed," as dictated by the most elementary common sense. THOMAS MCLEOD, M. D.

Double Tragedy at Newnan.

Newnan, Ga., Jan. 13.—F. M. Alums shot and almost instantly killed his wife here yesterday. He attempted suicide soon afterward, but was prevented from ending his own life. Jealousy on the part of Alums toward his wife and the fact that she would not live with him are supposed to have been the causes of the tragedy.

Will Reside in San Francisco.

San Francisco, Jan. 13.—The widow of Caesar Young will soon again be a resident of San Francisco. She has written for her old apartments in a house on St. Elias street, and it is expected she will arrive in a few days. Mrs. Young resided at the same address with her husband many years ago.

EAST INDIAN METHODS.

A Servant's Subtle but Unsuccessful Scheme For Revenge.

A trade journal tells a story of an adventure which nearly cost one of its correspondents in India his life. The Indian merchant was a wealthy man who had got on well with the natives, but two of his servants had had a quarrel over a girl whom they both wooed. The merchant interfered in the fight. The unsuccessful suitor, Laj, began to make trouble, and his rival, the husband, warned the merchant against him. Nothing happened for some months. Then the merchant went away on business. On his return he was told that Laj had been caught in his bedroom and locked up.

In the east this meant trouble. The merchant called his servants and had a thorough search made of the house. They examined every trunk, bureau and bedstead, every picture, statue and crevice in the wall and crack in the floor, expecting to find a hooded cobra or other poisonous reptile. They scrutinized every knob, handle and garment to see if it had been smeared with poison or with juices which attracted venomous creatures. Then they searched the wine cellar, the pantry and the storeroom. But they found nothing.

The merchant was tired and after eating went to the cabinet where he kept his cigars. It was a large case of teak and plate glass, with an old fashioned silver Indian lock.

As he was about to insert the key in the keyhole Laj's successful rival, who had been active in the search, cried, "Look out, sahib; some one has been meddling with that lock!"

They examined the keyhole and found traces of wax. When they opened the case the merchant found everything apparently untouched. Five boxes of cigars were unopened. He had opened the sixth before he went away and removed a few cigars. As he took this box up he noticed on it the marks of fingers.

The cigars looked as if they had not been disturbed. He was about to take one when he noticed that something was wrong with the head. A second and a third were like the first. In each a small, almost imperceptible rose thorn had been inserted, and on it was a dab of brown slime still moist the same color as the cigar.

"Do not touch them, sahib," said the Indian. "They are poisoned."

The merchant sat down and wrote a note to the police. In half an hour an officer appeared with Laj under guard. The merchant stated the case to the officer and, taking one of the cigars, handed it to Laj, with the command, "Take it and smoke it."

The man turned gray and refused. His guilt was proved.

Rev. Carlisle P. B. Martin, L. L. D., Of Waverley, Texas, writes: "Of a morning, when first arising, I often find a troublesome collection of phlegm, which produces a cough, and is very hard to dislodge; but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons needing a medicine for throat or lung trouble." 25, 50c and $1.00. Sold by W. M. Johnson.

A Careful Judge.

This story is related of an old time judge: During a session of court there was so much talking and laughter going on that the judge, becoming angry and confused, shouted in great wrath: "Silence, here! We have decided half a dozen cases this morning, and I have not heard a word of one of them!"

Dangerous.

Binks—That long tunnel on the P., D. and Q. is a very dangerous place.

Jinks—Why, there hasn't been an accident there for years.

Binks—But within the past week four young couples have started through it free as air and come out engaged.

Arms and Their Uses.

Jessie—What made you remain such a long time in the conservatory with that young lieutenant? Bessie—Our conversation turned to war, and he was showing me how an officer should use his arms.

Pleasant and Most Effective.

T. J. Chambers, Editor Vindicator, Liberty, Texas, writes Dec. 25, 1902: "With pleasure and unsolicited by you, I bear testimony to the curative power of Ballard's Horehound Syrup. I have used it in my family and can cheerfully affirm it is the most effective and pleasantest remedy for coughs and colds I have ever used." 25c, 50c and $1.00. Sold by W. M. Johnson.

CARDUI BABIES

Many homes are mere lonely abodes because no children are there. Barrenness exists in almost every case because female diseases have paralyzed the organs of womanhood.

Wine of Cardui imparts health and strength to the diseased parts and makes motherhood possible in thousands of cases where barrenness is supposed to be incurable. Wine of Cardui regulates the menstrual flow and also prevents miscarriage and cures bearing down pains. Wine of Cardui removes the cause of barrenness by making the female organism strong and healthy.

Go to your druggist and secure a $1.00 bottle of Wine of Cardui. The use of Wine of Cardui will bring happiness to your home.

For that tight feeling in your chest

There is a remedy over 60 years old—Ayer's Cherry Pectoral. Of course you have heard of it, probably have used it. Once in the family, it stays; the one household remedy for coughs and hard colds on the chest. Ask your doctor about it. J. C. Ayer Co., Lowell, Mass.

...C. W. Scott Likes to Hear From Gainesville.

...nder date of Warsaw, Ind., January 9th, Col. C. W. Scott, who was at one time a resident of Gainesville, writes to The Sun as follows:

"The Gainesville Sun arrived in due time the first week in December, 1904, and has put in an appearance regular twice a week since. How familiar it looked, just like an old friend, and how we all enjoyed the news it brought us of the old friends back in Gainesville.

"I was glad to hear of the progress the city was making; undoubtedly if the same spirit is kept up Gainesville will be the best city in Florida. I hope you will be able to get the discriminating freight rates adjusted, and if you do there is no doubt but what you will get the wholesale trade to re-locate in Gainesville.

"Dr. J. Wilbur Chapman, the great evangelist, and I spent the day together in the country week before last. He is a grand man, and told me that Dr. Clarence Strouse would assist him in his great meeting at Denver. He was glad to hear me recommend Dr. Strouse so highly. At that meeting Dr. Chapman will be assisted by eight well known evangelists, besides his noted singers.

"Yours truly,
"C. W. SCOTT."

RECEPTION TO DR. JONES.

...Many Ladies Were Present at Home of Mrs. Geo. K. Broome Friday.

A great many ladies of this city, comprising largely the members of the Daughters of the Confederacy, were ...t the home of Mrs. George K. Broome Friday to attend the reception tendered in honor of Dr. J. Wm. Jones, the famous lecturer.

Upon this occasion the spacious home was elaborately decorated, and it is needless to add that those who attended enjoyed greatly meeting Dr. Jones, who is a most affable, entertaining gentleman.

FIRE AT ROCHELLE.

Two-Story Building Occupied as Restaurant Burned Thursday.

Information reached this city yesterday of a fire at Rochelle, in which the two-story building owned by John Zetrouer and occupied by colored people as a restaurant and boarding house, was destroyed by fire at a late hour Thursday night.

The building was erected about four years ago. It was valued at about $1,200, and it is understood was partially insured. The furniture, however, was not covered by insurance.

Sickening Shivering Fits

Of ague and malaria can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to quinine, having none of the drug's bad after effects. E. S. Mundy of Henrietta, Tex., writes: "My brother was very low with malaria fever and jaundice, till he took Electric Bitters, which saved his life." At all druggists. Price 50c, guaranteed.

Harmon-Taylor Ball Game.

The baseball game between the Harmon and Taylor teams of the E. F. S. yesterday resulted in a victory for the former team. There were numerous errors, no earned runs, but an abundance of "strike-outs," Harmon having eleven to his credit while Coombs made eight of the boys strike the atmosphere. There were several decisions that the umpire felt a little backward about discussing. Smith, the "gentleman from Missouri," distinguished himself in left field, taking two fine flies.

The Taylor's got a basket of "goose eggs" up to the ninth and by a scratch saved a "shut-out." The teams were off on hitting, the pitchers doing most of the work. The score by innings was as follows:

Taylors	0	0	0	0	0	0	0	0	1	—1
Harmons	0	1	0	3	0	0	0	0	1	—5

Batteries: Taylor's—Coombs and Jacobie.

Harmon's—Harmon and Thomas; umpire, W. K. Zewadski. Time 1:40.

Cured Lumbago.

A. B. Canman, Chicago, writes March 4, 1903: "Having been troubled with lumbago at different times and tried one physician after another; then different ointments and liniments, gave it up altogether. So I tried once more, and got a bottle of Ballard's Snow Liniament, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of former soldiers." 25c, 50c and $1. Sold by W. M. Johnson.

Officers of Spanish War Veterans.

Indianapolis, Ind., Jan. 13.—Captain William E. English, commander in chief of the United States War Veterans' association, today announced his appointments for the full term to which he was elected beginning Jan. 1. They are as follows: Adjutant general, Lieutenant Colonel Russell B Harrison, of Indianapolis; quartermaster general, Lieutenant George O. Powell, Indianapolis; chief of staff, Captain Champes Andrews, New York city.

Girl Puts Out Her Eyes.

LaPorte, Iowa, Jan. 13.—Miss Cecilia McAndrews, who was kept under surveillance at Madison, Wis., for two days on suspicion of being implicated in the sudden death there last week of B. F. Burton, a hotel proprietor, attempted suicide there. She swallowed wood alcohol and poured some of it in her eyes. Though she may not die, she will be blind.

Rheumatism

Like Neuralgia, is now known to be a nervous disease. The kidneys become weak through lack of nerve energy, and fail to filter the uric acid from the blood; this acid attacks and burns the nerves and muscles, and consumes the oil in the joints, producing inflammation, fever, swelling—pain.

To cure Rheumatism, then, you must restore the kidney nerves and muscles, and neutralize the effect of the acid upon the joints and tissues with Dr. Miles' Restorative Nervine, a nerve medicine, which has made many cures of this painful disease. Nervine strengthens the kidney nerves and increases the circulation, and relief is assured.

"Before I took Dr. Miles' Nervine, I had been looking for a cure for Rheumatism for 25 years. The last time I was laid up for several months, could not get out of bed or set foot on the floor. I tried remedies to rub in, to drink, doctors' prescriptions, etc., but none of them had any effect. One day I read about Dr. Miles' Nervine and got a bottle. After the first dose I had a good night's rest, and after taking half a bottle the pains disappeared, and I went out and walked all around the town. In a week I went to work, and was perfectly cured, but continued to take the medicine for a time, to make sure the pains would not come back."
THOS. LONG,
213 N. Chatham St., Racine, Wis.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

YOUR MORNING DRAM.

Let It Be a Glass of Water and Enjoy an Inside Bath.

Drink a glass of water when you get out of bed in the morning. Never mind the size of the glass. Let the water be cold if you will. Some people prescribe hot water, but that isn't necessary. You may have washed your face already and relished the experience. You may have taken a cold plunge into the tub and delighted in the shock and its reaction. The brisk use of the toothbrush has left your mouth clean and the breath sweet. But you are dirty still.

Drink a glass of cold water and enjoy the sensation of being clean inside. All that is luxurious in the cold bath cleansing the outside is artificial. That which should prompt the glass of water after sleeping is natural.

Drink a glass of cold water in the name of cleanliness. It becomes one of the shortest and easiest of toilet duties. It is swallowed in a second, and in five minutes it has passed from the stomach, taking with it the clogging secretions of the alimentary tracts. It has left behind the stimulus that goes with cold water, and, by filling the arterial system to the normal, it puts a spur to the circulation that has grown sluggish in the night.—Chicago Chronicle.

THE BRIDE'S PORTION.

At One Time It Was Stated In the Wedding Announcement.

It was a common custom in the eighteenth century, especially during the reign of George II., to insert notices of marriage stating the bride's portion in contemporary periodicals and newspapers both in England and Scotland.

Almost every number of the Gentleman's Magazine at that time contained several of these records, of which the following, in 1731, is a specimen: "Married, the Revd. Mr. Roger Waltus, of York, about twenty-six year of age, to a Lincolnshire lady, upwards of eighty, with whom he is to have £8,000 in money, £300 per annum, and a coach and four, during life only."

Sometimes the notice merely describes the bride as a lady with a "good portion" or a "genteel fortune." One of the latest notices was in Aris' Birmingham Gazette, July 14, 1800, which recorded the marriage of Mr. Canning, undersecretary of state, to Miss Scott, "With £100,000 fortune."—London Telegraph.

Butterflies and Moths.

Though butterflies and moths are found widely distributed all over the globe they are by far most abundant in the tropics. For instance, Brazil can show to the collector not less than 700 different species within an hour's walk of Para. There are not half as many in all Europe. In Britain there are 67 species, and in all Europe there are 390 different kinds. They are found as far north as Spitzbergen, on the Alps to a height of 9,000 feet and on the Andes up to 18,000 feet. As there are some 200,000 species it is easy to see why butterfly hunters are great travelers.

A Grim Tragedy

Is daily enacted in thousands of homes, as death claims, in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntley of Oaklandon, Ind., writes: "My wife had the consumption, three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and $1.00 by all druggists. Trial bottles free.

If the energy some merchants waste in foming around and growling about poor business was expended in the right direction—looking after stock, barring out poor credits and keeping up a judicious amount of advertising—they would undoubtedly create better business conditions.

THE PANAMA CANAL.

It is reported that the President is demanding action in the matter of the construction of the Panama Canal. The people of the South trust that as he has put his hand to the plow, so to speak, he will go to the end of the furrow in as short a time as possible. The country has money enough, engineering ability enough, workmen enough and information enough to put the canal through—or at least to prove that the project is not feasible. The time for discussion has passed. The plans have been adopted. It is the time for executive action, because Congress has granted all necessary authority and all necessary funds.

The people of the South have a most acute interest in the construction of the canal, because they wish to lay hold of the Oriental trade. They have been waiting and waiting for many years—ever since De Lesseps and the French abandoned the scheme in a cloud of scandal—for American construction and possession of the canal. It was nothing to them, materially, whether the inter-ocean waterway went through Nicaragua or the Isthmus of Darien. They have longed for the canal. The route having been determined, they now want it to be built and they will applaud the President in taking whatever measures he may choose within the purview of his authority, to push the work to its completion. If one group of commissioners prove inefficient another can be found who will do their duty.

THE STORY OF A KING.

Once upon a time, as the story goes, the king did something which pleased the owners and keepers of the vineyards round about in his kingdom. Word went out among them that on a certain day they were to assemble, each bringing with him a cupful of the best wine from his best vintage and deposit it in a cask to be presented to their soverign as a token of their esteem, and incidentally to tickle his palate. One husbandman thought that in a whole cask of wine one cup of water would not be detected, and so he put water in for his portion, keeping his good old wine. The cask being filled was duly sealed, and with much ceremony delivered to the king. When it was opened it was discovered that the cask contained nothing but water. Every contributer had shrewdly, as he thought, come to the same conclusion that just one cup of water would not be detected. Then the king went out and had all of their heads struck off.

This story comes to mind, in view of the proposition to cut down the cotton crop. It is feared that when the impression gets pretty well soaked in that the farmers are really going to curtail the crop, there will be a widespread temptation to dodge back and plant just a "leetle more" cotton. The moral of the story is obvious. King Cotton will chop some heads off if they make that mistake.

THEORY OF THEFT.

Mrs. Chadwick's operations have demonstrated anew the great theory of theft, which is given as follows:

Stealing a million—Genius.
Stealing $500,000—Sagacity.
Stealing $100,000—Shrewdness.
Stealing $50,000—Misfortune.
Stealing $25,000—Irregularity.
Stealing $10,000—Misappropriation.
Stealing $5,000—Speculation.
Stealing $2,500—Embezzlement.
Stealing $1,250—Swindling.
Stealing $100—Larceny.
Stealing $10—Theft.
Stealing a ham—War on society.

So, dear reader, if you are going to be a thief, by all means be a first-class one.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O.

At last the pension roll of the United States exceeds one million of persons, the number now being 1,000,781. It is thought the maximum has been reached. There has been a corresponding increase in the payments, but it is given out that the expenses of running the bureau are to be curtailed, and that in the near future some five hundred clerks may be dispensed with. Many of them are receiving larger salaries than they could earn if left to their own resources and reductions are proposed.

A bill will be presented to Congress for the establishment of a parcels post limited in its operations to the people of a city and the patrons of rural routes extending from that city. Such a law would be a great convenience to farmers and not injurious to the merchants of small cities and villages, but would it not be a precedent for a parcels post without limitation—a law whose principal beneficiaries would be the big city establishments?

Justice of the Peace Chamblin, of the Archer district, complains that cases accruing in his district have in several instances been tried by justices of other districts, notably Gainesville and Newberry, when he was present in his district and ready to try the cases himself. He justly says this is a violation of the spirit, if not the letter of the law, and will hereafter protest against the county commissioners paying costs in such cases.

According to the papers, a man in Waterbury, Conn., will take a wife just to win a hat, but that is no way to state the case. Fact is that owing to the universal prosperity in New England, they throw in a wife with the purchase of a hat. That's why that so many of the denizens of that reigon wear caps.

The Postoffice Department issues an order making the publication of guessing contest illegal, and yet the Agricultural Department continues to send out its weather bureau guesses to all the papers in the United States. Does not this make Secretary Wilson an accomplice?

The American Congress will make no mistake if it puts upon the free list every article manufactured in the United States and sold to consumers in foreign countries cheaper than the same article is sold to consumers in this country.

CORPORATION MEETING.

Congregation of Presbyterian Church Held Most Encouraging Session.

There was a meeting of the corporation and trustees of the First Presbyterian Church Tuesday afternoon, which was well attended, and at which there was a great deal of interest manifested.

This meeting was an annual gathering at which officers were elected. The same officers were re-elected for the ensuing year as follows:

Session—Rev. Thos. P. Hay, moderator; Elders J. D. Matheson, clerk; A. J. Vidal, L. E. Means, J. H. Vidal, Christopher Matheson.

Board of Deacons—Geo. W. Hyde, O. B. Bailey, W. B. Higdon, W. S. Dorsey, M. B. Saunders, Geo. S. Merchant, J. G. Harrold.

Trustees—Geo. W. Hyde, Geo. K. Broome, M. B. Saunders, Christopher Matheson, L. M. McCormick.

The review of the affairs of the church showed a marked degree of prosperity, the church financially and otherwise being in a most healthy state.

DR. JONES' LECTURE.

A Large Audience Greeted This Distinguished Gentleman Friday Night.

A large audience greeted Dr. J. Wm. Jones, the Confederate hero and ex-chaplain on General Lee's staff, at the opera house Friday evening, the occasion being a lecture by Dr. Jones on "The Boys in Gray."

This lecture was delivered jointly for the benefit of J. J. Finley Chapter, U. D. C., of this city, and Battle Abbey.

There is but one opinion to the Doctor's address. It was admirable—a plain, unvarnished story, without rhetoric, without parade, yet not a word was lost by the audience, and not a word failed of appreciation. Dr. Jones as an orator is pleasing and interesting, and those who attended his lecture spent an evening of rare enjoyment.

Imperfect Indigestion

Means less nutrition and in consequence less vitality. When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Herbine will rectify this; it gives tone to the stomach, liver and kidneys, strengthens the appetite, clears and improves the complexion, infuses new life and vigor to the whole system. 50 cents a bottle. Sold by W. M. Johnson.

Women Victims of Yellow Fever.

New York, Jan. 13.—Two women were recently taken from the steamship Dora when it arrived from southern ports are dead in the yellow fever hospital, cables a correspondent of the Herald at Havana. A third case among the passengers was that of a man who died last Thursday as previously reported.

Fog Paralyzes Business.

Philadelphia, Jan. 13.—A dense fog thicker than for years, has practically paralyzed the business of this port. A big fleet of steamship and sailing vessels is at anchor in the Delaware. All of the Pennsylvania and Reading railroad's ferryboats are running behind schedules. Land travel has also greatly hindered.

Young Woman Kidnaped.

Birmingham, Ala., Jan. 13.—Miss Bessie McPherson, a beautiful young woman aged 18, daughter of J. H. McPherson, of Woodlawn, left her home on Monday afternoon with $75, which was given her to pay the family monthly bills with. Since then she has not been seen. Her parents have reported the matter to the police, believing, they claim, that she must have been kidnaped. She is described as a remarkably handsome young woman.

Soldiers Deserting in Morocco.

Tangier, Jan. 13.—According to an excellent authority the sultan of Morocco recently mobilized at Fez a considerable army composed apparently of loyal, satisfied Kabyles. These, however, suddenly deserted and the sultan was left without a military force sufficient to make up one regiment. The same authority states that all southern tribes at a convention proclaimed as sultan Mullai Hafig, the sultan's brother.

An Epicure In Condiment.

It was in the dining room of a country hotel, the Chicago Record-Herald says, and the brisk waitress held a glass pitcher above some steaming buckwheat cakes she had placed before the guest from town.

"Sir'p?" she asked.

"If you please."

"Will you have it raound and raound or in a puddle?"

"Beg pardon?"

"Raound and raound or in a puddle?"

"I—I—in a puddle, I think."

The golden stream began its sticky descent on the center of the cakes, and as she poured the waitress included the guest and her work in one friendly contemplative glance.

"Some prefers it raound and raound, but I like it best in a puddle myself," she said graciously, as she shut off the stream of sirup with a dexterous turn of her wrist.

A Friend in Need.

Do you know of anyone suffering with consumption? Then tell them without delay that Dr. Boschee's German Syrup will cure them—and you will be a friend in need. German Syrup is a reliable specific for the cure of consumption. It has been making marvelous cures of consumption throughout the world for forty years. SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root, and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

THE THREE ANGELS.

A Bit of Hungarian Folklore Illustrating German Firmness.

Here is a bit of Hungarian folklore: After the Lord had decided to expel Adam and Eve from paradise he sent Gabriel, the Hungarian angel, to carry out his order. Now, from the eating of the fruit of the forbidden tree Adam and Eve had become quite shrewd, and they were endeavoring to get out of the fix as best they could, so they prepared a big feast, received Gabriel with the utmost kindness and sought to win his heart by a lot of affectionate words. They succeeded. It grieved Gabriel to expel these kind hosts from their home. He therefore returned to the Lord with the request that somebody else be charged with this unpleasant mission.

Thereupon the Lord sent Florian, the Roumanian angel, because the Lord knew Florian to be more obedient and less magnanimous. Adam and Eve were just dining when Florian, hat and large cane in hand, stepped in. He saluted in a most humble manner and then told why he had come. "Have you it in writing?" inquired Adam severely. "No," stammered the visitor, and, frightened, he returned to his heavenly abode.

Then the Lord sent Michael, the German angel. Adam and Eve at once set to work preparing even a richer meal than had been served Gabriel, thinking they might induce Michael to be lenient. So the very best things were served, and there was no scarcity of beer and good sausages. Michael ate until he could hardly even wheeze. Then he arose and, drawing his sword, said, "Now you get out of this!" Adam and Eve tried all their little tricks to stay. They appealed to his mercy and implored him to consider how nicely they had treated him. But all in vain. Michael remained firm, merely saying, "It must be." And he drove them out.—Chicago News.

GOV. GLENN INAUGURATED.

New Executive Goes Into Office In North Carolina.

Raleigh, N. C., Jan. 13.—R. B. Glenn, of Winston, was inaugurated Wednesday governor of North Carolina, the exercises taking place in the Academy of Music, as rain prevented the outdoor exercises arranged at the capitol. The other state officers also took the oath of office which was administered by Chief Justice Clark. Ex-Governor Aycock was wildly cheered as he introduced the new governor.

An immense crowd was in attendance. Governor Glenn praised the retiring administration and declared for the disfranchising suffrage amendments even at the loss of congressmen. As to education of the negro, he said this should be given as befits his condition. He opposed a pro rata division of school taxes or giving such race its own taxes, saying the money should be divided as needed by each race. He approved organized labor, but urged that it not be used to keep non-union men from work; favored a child labor law permitting no child under 14 in factories who could not read and write, with none under 12; favored a strict divorce law; asked for a reformatory; urged strict legislation against lynching; declared for no backward step in educating the masses nor in regard to temperance legislation.

CUBAN CONGRESS IN SESSION.

Important Sanitation Bill Is Passed by the Senate.

Havana, Jan. 13.—The senate last evening engaged in a long and heated discussion of an amendment to the general sanitary bill informally passed Sept. 1. providing that proportionate amounts of that appropriation be turned over monthly to the municipalities, the latter to carry out their own sanitation instead of the general government. The Nationalists senators strongly championed the amendment, arguing that it would be unconstitutional and unjust for the government to assume the prerogative of local governments.

The administration leaders contended that the work would not be successful if performed by local authorities and urged the necessity of government inspection as a basis for systematic work.

The amendment was carried by a vote of 11 to 6, neutrality including senators voting with the Nationalists in favor of the local control.

President Spencer Before Committee.

Washington, Jan. 13.—Samuel Spencer, president of the Southern railway, and authorized to voice the sentiment of the New York Central, Erie, Chicago, Milwaukee and St. Paul and Northern Pacific, Illinois Central, Delaware, Lackawanna and Western and other railway companies, spoke vigorously today before the house committee on inter-state and foreign commerce against the Cooper-Quarles bill or any proposition to authorize the inter-state commerce comission to fix railway rates. Mr. Spencer is the first direct and official representative of the railways to be heard by the committee, and his testimony is regarded as the keynote of the opposition to the rate-fixing by the government.

Ex-Senator Davis Sees President.

Washington, Jan. 13.—Former Senator Henry G. Davis, of West Virginia, recently Democratic candidate for vice president, called on the president to pay his respects. The president greeted Mr. Davis cordially, saying: "I am glad to see you, Mr. Davis. Walk right into my office. You are entitled to precedence over all others." The president and Mr. Davis had a pleasant chat about matters of mutual personal interest.

Establish Quarantine Stations.

Washington, Jan. 13.—Representative Woodsworth, of New York, chairman of the house committee on agriculture, has introduced a bill to enable the secretary of agriculture to establish and maintain quarantine districts and to permit and regulate the movement of cattle and other live stock. It authorizes the secretary to quarantine any state or territory wherein any live stock is affected by contagious diseases. Penalties are provided for violation of the secretary's order for interfering with officials enforcing the act.

Death Came on Sidewalk.

Thomasville, Ga., Jan. 13.—T. Borden, drummer for the International Harvesting Machine company, with headquarters in Atlanta and his home at Cedartown, died here yesterday morning from hemorhage of the lungs. He was seized with an attack on the street, and died on the sidewalk before he ecould reach his hotel. The body was taken in charge by the Masons and will be sent to Cedartown.

DIVIDING THE TIPS.

The Method That Is Followed In Some London Restaurants.

Tipping has been reduced to a very fine system in some English hotels and restaurants. "I was sitting at meat with the manager of one of the well known London restaurants," says a writer. "'I am short sighted and unobservant,' I said, 'and as I never know one waiter from another I'm always uneasy lest I've tipped the wrong one.' The manager laughed. 'Fritz, bring the book,' he said. The book was opened upon the table and disclosed columns and rows of figures opposite the names of waiters. Between them the manager and Fritz explained the system.

"Every penny given in tips was cast into a common fund in charge of a waiter elected by his fellows. At the end of the week the sum was distributed. Three classes were arranged by the manager, according to efficiency, and the shares were in corresponding proportions, so that the junior who hovers with the sauce is by no means equally rewarded with the expert who can advise in the matter of wine.

"Waiters keep a jealous eye on their fellows, and the man suspected of pocketing a tip finds his position untenable. The system is good for the public, since it diminishes the unpleasing personality of a charitable action. It is good, too, for the waiters, since that record of the weekly gratuities showed that the best waiters made about $2,000 a year in tips."

Spoiled Her Beauty

Harriet Howard of 209 W. 35th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had salt rheum, or eczema, for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. Twenty-five cents at all druggists.

No Need to Speak to Him.

"Now, dear," said Mr. Polkley, who had just been accepted, "when shall I speak to your father?"

"You needn't bother," replied the dear girl. "Pa said he'd speak to you tomorrow if you didn't speak to me tonight."—Philadelphia Ledger.

By Wire and Air.

An accidental experiment in the velocity of sound is recounted by a correspondent. He went to his telephone, and just as he put the receiver to his ear he heard the click of another telephone. Another receiver had been removed and the line was open.

Then he heard through the telephone the shriek of a locomotive whistle, and a few seconds later the sound came through the open window in the usual way. Looking up, he saw a locomotive half a mile away, passing the house of a friend.

The mystery was solved. The telephone that was open was that at the distant house, and the sound of the whistle had come through its transformation into an electric current quicker than it had traveled through the air.

Soap That Floats.

A floating soap is produced by the mass of soap being "beaten" while it is cooling, just as we beat eggs or batter. This incorporates air into the soap and makes it float. A given bulk of floating soap weighs much less than the same bulk of soap that does not float. One hundred pounds of soap beaten will make many more cakes of a given size of floating soap not beaten. It is due to no ingredient. Any soap will float if beaten. A soap is no better because it floats. This is no sign of a good soap. The only advantage is in being able to find the cake more easily if it be dropped into the bath or wash tub. In soap factories the soap is beaten by machinery.

Routing Burglars.

"You can't lose my wife."

"No?"

"Well, listen. I was away from home for three days last week. One night she heard burglars, the same burglars that she has been hearing ever since we were married. 'I'll make them think there's a man in the house,' she decided. So she put on a pair of my shoes and tramped about on the hardwood floors for an hour to scare them away. My wife is a diplomat."—Cleveland Leader.

Best Water Pipes.

It is calculated that one right angle bend in a pipe through which water flows will make necessary 9 per cent more pressure for a given flow than is required for a straight pipe of like size and structure. With three sharp bends at right angles the pressure needed is 18 per cent more than that which is used in a straight pipe.

Reminders of the Moors.

Concerning the dwellings in the Argentine Republic a traveler writes: "Wherever there was a collection of houses I was greatly struck with the character of the architecture—like Arab or Moorish villages, one great wall without windows surrounding them. The country is very quiet now—safe enough for a bevy of schoolgirls to travel it by day or night—but still the peculiar architecture remains. At Negra Muerta, where we camped, there was only one large building, once the headquarters of the 'estanciero,' who owns hundreds of square leagues of the surrounding country, but now tenanted by his manager, a superior sort of half breed Spanish Indian, with his family. There was the huge square outside wall without any windows of any kind, one arched doorway and the inside house or houses built against the outer wall and facing into a patio—a most Moorish looking place. Truly the occupation of Spain by the Moors has left its deep markings; they extended across to the new world, influencing today even the customs of the Indians of Spanish South America."

Shoemaking In the Black Forest.

The Black forest of Germany, a region famous for centuries, is hundreds of years behind the present age in methods of living and conducting simple industries. This fact is strikingly exemplified in the primitive ways the natives follow in making leather and shoes. When a farmer kills his beef he takes the hide to the local tanner, who will keep it for two years before he considers it fit for the shoemaker. When the hide is leather the shoemaker is informed of the fact.

Then some morning the shoemaker comes to the farmer's house with his kit of tools and for the time being is one of the family. Every Katrina and every Johann is marched before him and measured, and the work of making shoes for the family begins. It may take a month, more or less, but he sticks to his job until every one is properly shod, when he is away to the next customer needing his services.—Shoe Retailer.

A Story of Napoleon.

Napoleon invariably refused to remove his hat when he received kings and sovereign princes under the rank of emperor. He uncovered his head only in the presence of the emperors of Russia and of Austria. One day Napoleon received the king of Bavaria and of Saxony at St. Cloud. As the two kings removed their hats the emperor acknowledged their salutations by merely touching the brim of his cocked hat with his forefinger. He then drove with the two kings to Malmaison and, getting out of his carriage, casually remarked: "I am going to see the empress. Would you mind waiting for me?" The royal pair seemed to have been forgotten, for they sat in silent expectation for nearly an hour. Finally they noticed some of the imperial footmen playing cards. The king of Bavaria then laughingly remarked to the king of Saxony: "What a pity we haven't got a pack of cards. Since he treats us in this way we might at least follow the servants' example and pass the time playing picquet."—New York Tribune.

Bolivian Runners.

"Every one who has read the histories of the Incas," writes an Englishman, "has marveled at the tales of the native runners who were a feature in the civilization of that period. Some of this race of men still remain. When in Bolivia I have often had a telegram delivered at the station, forty miles away, and an answer received and brought back by the same man, all, including the journey of eighty miles, not occupying more than eighteen hours. The man was well content to receive two Bolivian dollars, or 75 cents in American money, for the service. I saw a man who delivered a message 200 miles away and brought an answer back, covering within six days and nights 400 miles. As he did this work for a native, his charge was five Bolivian dollars, about $1.87 American, out of which he provided his own food."

No Deception.

Miss Goodart—I gave you that quarter because you said you hadn't had anything to eat since yesterday morning, and here I catch you going into a saloon. Weary Willie—Lady, I said I hadn't anything to eat, but I didn't say I wanted anything to eat, did I?—Philadelphia Ledger.

GOV. GLENN INAUGURATED.

New Executive Goes Into Office In North Carolina.

Raleigh, N. C., Jan. 13.—R. B. Glenn, of Winston, was inaugurated Wednesday governor of North Carolina, the exercises taking place in the Academy of Music, as rain prevented the outdoor exercises arranged at the capitol. The other state officers also took the oath of office which was administered by Chief Justice Clark. Ex-Governor Aycock was wildly cheered as he introduced the new governor.

An immense crowd was in attendance. Governor Glenn praised the retiring administration and declared for the disfranchising suffrage amendments even at the loss of congressmen. As to education of the negro, he said this should be given as befits his condition. He opposed a pro rata division of school taxes or giving such race its own taxes, saying the money should be divided as needed by each race. He approved organized labor, but urged that it not be used to keep non-union men from work; favored a child labor law permitting no child under 14 in factories who could not read and write, with none under 12; favored a strict divorce law; asked for a reformatory; urged strict legislation against lynching; declared for no backward step in educating the masses nor in regard to temperance legislation.

CUBAN CONGRESS IN SESSION.

Important Sanitation Bill Is Passed by the Senate.

Havana, Jan. 13.—The senate last evening engaged in a long and heated discussion of an amendment to the general sanitary bill informally passed Sept. 1. providing that proportionate amounts of that appropriation be turned over monthly to the municipalities, the latter to carry out their own sanitation instead of the general government. The Nationalists senators strongly championed the amendment, arguing that it would be unconstitutional and unjust for the government to assume the prerogative of local governments.

The administration leaders contended that the work would not be successful if performed by local authorities and urged the necessity of government inspection as a basis for systematic work.

The amendment was carried by a vote of 11 to 6, neutrality including senators voting with the Nationalists in favor of the local control.

President Spencer Before Committee.

Washington, Jan. 13.—Samuel Spencer, president of the Southern railway, and authorized to voice the sentiment of the New York Central, Erie, Chicago, Milwaukee and St. Paul and Northern Pacific, Illinois Central, Delaware, Lackawanna and Western and other railway companies, spoke vigorously today before the house committee on inter-state and foreign commerce against the Cooper-Quarles bill or any proposition to authorize the inter-state commerce comission to fix railway rates. Mr. Spencer is the first direct and official representative of the railways to be heard by the committee, and his testimony is regarded as the keynote of the opposition to the rate-fixing by the government.

Ex-Senator Davis Sees President.

Washington, Jan. 13.—Former Senator Henry G. Davis, of West Virginia, recently Democratic candidate for vice president, called on the president to pay his respects. The president greeted Mr. Davis cordially, saying: "I am glad to see you, Mr. Davis. Walk right into my office. You are entitled to precedence over all others." The president and Mr. Davis had a pleasant chat about matters of mutual personal interest.

Establish Quarantine Stations.

Washington, Jan. 13.—Representative Woodsworth, of New York, chairman of the house committee on agriculture, has introduced a bill to enable the secretary of agriculture to establish and maintain quarantine districts and to permit and regulate the movement of cattle and other live stock. It authorizes the secretary to quarantine any state or territory wherein any live stock is affected by contagious diseases. Penalties are provided for violation of the secretary's order for interfering with officials enforcing the act.

Death Came on Sidewalk.

Thomasville, Ga., Jan. 13.—T. Borden, drummer for the International Harvesting Machine company, with headquarters in Atlanta and his home at Cedartown, died here yesterday morning from hemorhage of the lungs. He was seized with an attack on the street, and died on the sidewalk before he ecould reach his hotel. The body was taken in charge by the Masons and will be sent to Cedartown.

DIVIDING THE TIPS.

The Method That Is Followed In Some London Restaurants.

Tipping has been reduced to a very fine system in some English hotels and restaurants. "I was sitting at meat with the manager of one of the well known London restaurants," says a writer. "'I am short sighted and unobservant,' I said, 'and as I never know one waiter from another I'm always uneasy lest I've tipped the wrong one.' The manager laughed. 'Fritz, bring the book,' he said. The book was opened upon the table and disclosed columns and rows of figures opposite the names of waiters. Between them the manager and Fritz explained the system.

"Every penny given in tips was cast into a common fund in charge of a waiter elected by his fellows. At the end of the week the sum was distributed. Three classes were arranged by the manager, according to efficiency, and the shares were in corresponding proportions, so that the junior who hovers with the sauce is by no means equally rewarded with the expert who can advise in the matter of wine.

"Waiters keep a jealous eye on their fellows, and the man suspected of pocketing a tip finds his position untenable. The system is good for the public, since it diminishes the unpleasing personality of a charitable action. It is good, too, for the waiters, since that record of the weekly gratuities showed that the best waiters made about $2,000 a year in tips."

Spoiled Her Beauty

Harriet Howard of 209 W. 35th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had salt rheum, or eczema, for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. Twenty-five cents at all druggists.

No Need to Speak to Him.

"Now, dear," said Mr. Polkley, who had just been accepted, "when shall I speak to your father?"

"You needn't bother," replied the dear girl. "Pa said he'd speak to you tomorrow if you didn't speak to me tonight."—Philadelphia Ledger.

The National Machine works, on corner of Wood and Hawthorne streets in Chicago, have been destroyed by fire which started in the engine room. The loss is estimated at $70,000.

Frank Solomons, a merchant and prominent citizen of Apalachicola, Fla., has been found dead in his bed by his wife. Heart trouble was supposed to be the cause of his death.

The cattle [illegible] Texas, New Mexico and Arizona have been visited by the heaviest and most general fall of snow known in many years. A good range is assured for the coming year.

The intervention of the American legation at Constantinople has been successful and the Bibles seized at Mersina and Trebizond have been restored to the American Bible Society's agents.

The elections, which have been marked by riotous proceedings in Ecuador, ended Wednesday. Lizardo Garcia was elected president of Ecuador, and will assume the presidency on Aug. 10.

The supreme court of appeals of Virginia today refused a writ of error in the case of ex-Mayor McCue, of Charlottesville, convicted of wife murder and sentenced to hang the 20th of this month.

Governor Beckham, of Kentucky, has granted a stay of execution until July in the case of George Holland, sentenced to hang here tomorrow, for complicity in the murder of an unknown white [illegible] near Pembroke, November, 1900.

A. H. Sarasohn, pioneer Jewish newspaper publisher of the United States, died at his home in New York today. He was 73 years old. At the time of his death he was the editor and publisher of the Jewish daily News, which he founded in 1886.

By Wire and Air.

An accidental experiment in the velocity of sound is recounted by a correspondent. He went to his telephone, and just as he put the receiver to his ear he heard the click of another telephone. Another receiver had been removed and the line was open.

Then he heard through the telephone the shriek of a locomotive whistle, and a few seconds later the sound came through the open window in the usual way. Looking up, he saw a locomotive half a mile away, passing the house of a friend.

The mystery was solved. The telephone that was open was that at the distant house, and the sound of the whistle had come through its transformation into an electric current quicker than it had traveled through the air.

Soap That Floats.

A floating soap is produced by the mass of soap being "beaten" while it is cooling, just as we beat eggs or batter. This incorporates air into the soap and makes it float. A given bulk of floating soap weighs much less than the same bulk of soap that does not float. One hundred pounds of soap beaten will make many more cakes of a given size of floating soap not beaten. It is due to no ingredient. Any soap will float if beaten. A soap is no better because it floats. This is no sign of a good soap. The only advantage is in being able to find the cake more easily if it be dropped into the bath or wash tub. In soap factories the soap is beaten by machinery.

Routing Burglars.

"You can't lose my wife."

"No?"

"Well, listen. I was away from home for three days last week. One night she heard burglars, the same burglars that she has been hearing ever since we were married. 'I'll make them think there's a man in the house,' she decided. So she put on a pair of my shoes and tramped about on the hardwood floors for an hour to scare them away. My wife is a diplomat."—Cleveland Leader.

Best Water Pipes.

It is calculated that one right angle bend in a pipe through which water flows will make necessary 9 per cent more pressure for a given flow than is required for a straight pipe of like size and structure. With three sharp bends at right angles the pressure needed is 27 per cent more than that which is used in a straight pipe.

Reminders of the Moors.

Concerning the dwellings in the Argentine Republic a traveler writes: "Wherever there was a collection of houses I was greatly struck with the character of the architecture—like Arab or Moorish villages, one great wall without windows surrounding them. The country is very quiet now—safe enough for a bevy of schoolgirls to travel it by day or night—but still the peculiar architecture remains. At Negra Muerta, where we camped, there was only one large building, once the headquarters of the 'estanciero,' who owns hundreds of square leagues of the surrounding country, but now tenanted by his manager, a superior sort of half breed Spanish Indian, with his family. There was the huge square outside wall without any windows of any kind, one arched doorway and the inside house or houses built against the outer wall and facing into a patio—a most Moorish looking place. Truly the occupation of Spain by the Moors has left its deep markings; they extended across to the new world, influencing today even the customs of the Indians of Spanish South America."

Shoemaking In the Black Forest.

The Black forest of Germany, a region famous for centuries, is hundreds of years behind the present age in methods of living and conducting simple industries. This fact is strikingly exemplified in the primitive ways the natives follow in making leather and shoes. When a farmer kills his beef he takes the hide to the local tanner, who will keep it for two years before he considers it fit for the shoemaker. When the hide is leather the shoemaker is informed of the fact.

Then some morning the shoemaker comes to the farmer's house with his kit of tools and for the time being is one of the family. Every Katrina and every Johann is marched before him and measured, and the work of making shoes for the family begins. It may take a month, more or less, but he sticks to his job until every one is properly shod, when he is away to the next customer needing his services.—Shoe Retailer.

A Story of Napoleon.

Napoleon invariably refused to remove his hat when he received kings and sovereign princes under the rank of emperor. He uncovered his head only in the presence of the emperors of Russia and of Austria. One day Napoleon received the king of Bavaria and of Saxony at St. Cloud. As the two kings removed their hats the emperor acknowledged their salutations by merely touching the brim of his cocked hat with his forefinger. He then drove with the two kings to Malmaison and, getting out of his carriage, casually remarked: "I am going to see the empress. Would you mind waiting for me?" The royal pair seemed to have been forgotten, for they sat in silent expectation for nearly an hour. Finally they noticed some of the imperial footmen playing cards. The king of Bavaria then laughingly remarked to the king of Saxony: "What a pity we haven't got a pack of cards. Since he treats us in this way we might at least follow the servants' example and pass the time playing picquet."—New York Tribune.

Bolivian Runners.

"Every one who has read the histories of the Incas," writes an Englishman, "has marveled at the tales of the native runners who were a feature in the civilization of that period. Some of this race of men still remain. When in Bolivia I have often had a telegram delivered at the station, forty miles away, and an answer received and brought back by the same man, all, including the journey of eighty miles, not occupying more than eighteen hours. The man was well content to receive two Bolivian dollars, or 75 cents in American money, for the service. I saw a man who delivered a message 200 miles away and brought an answer back, covering within six days and nights 400 miles. As he did this work for a native, his charge was five Bolivian dollars, about $1.87 American, out of which he provided his own food."

No Deception.

Miss Goodart—I gave you that quarter because you said you hadn't had anything to eat since yesterday morning, and here I catch you going into a saloon. Weary Willie—Lady, I said I hadn't had anything to eat, but I didn't say I wanted anything to eat, did I?—Philadelphia Ledger.

Crippled.

Tramp (piteously)—Please help a cripple, sir.

Kind Old Gent (handing him some money)—Bless me, why, of course! How are you crippled, my poor fellow?

Tramp (pocketing the money)—Financially crippled, sir.—Glasgow Times.

Busy.

David Harum—That wuz a pretty good horse old Ez wuz drivin', eh? Eben Holden—Yes, he had so many good points you could use him for a hat rack.—Pennsylvania Punch Bowl.

An ounce of a man's own wit is worth a ton of other people's.—Sterne.

READ THIS.

Ripley, Tenn., June 1, 1901.

Dr. E. W. Hall, St. Louis Mo.—Dear Sir: Having tried various remedies without satisfactory results, I was persuaded to give your "Texas Wonder" a trial. I have used one bottle, and although my case is one of long standing that baffled the skill of the best physician, yet it yielded at once to "The Texas Wonder," which I heartily recommend to all suffering from kidney and bladder troubles.

Yours truly,
W. H. BRUTON,
Pastor Baptist Church, Ripley, Tenn.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

Insure with Cushman & Hill.

D. E. Williams, Jr., of Jacksonville, was registered at the Brown House yesterday.

Order your printed stationery from The Sun office. Our work is as good as the best and our prices cheaper than the cheapest.

Miss Ethel Huddlesten, a charming young lady of Texarkana, Ark., is in the city, and will be the guest of Mrs. E. M. Walton for a few weeks.

"Hello Central! Give me Carter & Anderson's market. Is that 24? Is Gandy there? Tell him to send me another pork roast like the last one. It was fine."

Rev. Jas. W. Porter will preach at the Fairbanks church Sunday morning at 11 o'clock. Mr. Porter is a man of fine ability and very impressive, and it is hoped a good crowd will be present to greet him.

J. R. Emerson has returned from Kirkwood, where he went on business. He states that the crops are looking fine, but rain is badly needed. The groves are looking well, and promise to pay the growers well.

J. B. Pate, the clever salesman of Ludden & Bates' Southern Music House, was at the Brown House yesterday. Mr. Pate formerly made his headquarters here, but has been transferred to Jacksonville. His numerous friends here were glad to see him again.

Superintendent Miller of the Gainesville Waterworks states that a great many improvements at the plant are anticipated, and that he proposes to begin work in a few days. These improvements will tend to give patrons of the waterworks a much better service, which it is needless to add will be appreciated. Mr. Miller is very enthusiastic in his duties, and is determined to give Gainesville the best water service in the State in proportion to population.

PHIFER BROS

Phifers' Corner, Gainesville, Fla.

Mrs. J. E. Waugh, formerly of this city but now residing in Macon, Ga., is here on a visit to friends. She expects to make her departure for home today. The numerous friends of Mrs. Waugh were glad to welcome her to her old home.

Sheriff Fennell has returned from the West End, and brougnt with him Will Smith, who has just served a three months' sentence, and who is now charged with breaking and entering. Smith is now in jail and will be arraigned at the circuit court for this charge.

We have been requested to announce that Rev. J. William Jones, who will remain in this city until Monday, has consented to deliver a sermon on the life of Andrew Jackson at the Presbyterian church Sunday. Dr. Jones is a fine speaker, full of interest, and those who fail to attend will miss a fine lecture.

A. M. Pournell, the progressive merchant, is making a great many improvements at his home on East Snell street. Mr. Pournell is adding a roof to his residence, and has otherwise improved the place. It is one of the most desirable homes in the city, and the improvements will make it all the more valuable.

Chas. W. Stephens of Alachua was among the visitors to this city yesterday, and among other business was the renewal of his subscription to The Sun. Mr. Stephens is a member of the firm of the J. E. Futch Company, one of the leading mercantile establishments of that progressive town. He has a son, Frasier, attending East Florida Seminary here, and visits him frequently. Frasier is a very bright young man, standing at the last examination second high in a class of seventy. He was very highly commended by the faculty.

There was a meeting of the Gainesville Board of Trade Wednesday afternoon, and this meeting called for a resolution, which was passed to the effect that a communication be directed to the Florida Railroad Commission asking that Gainesville be placed in the seventy class rate, which will make the city a rate on a basis with the wholesale merchants of Jacksonville and Tampa. The communication was so worded that if the commission desire they may take up the matter, and if not, they can give it the "cold shoulder" by refusing to grant a hearing for the action.

W. E. Murr, the clever traveling salesman for E. V. Finlayson, pants and skirts, Charlotte, N. C., has been at the Brown House for the past two or three days. Mr. Murr is a gentleman of a most generous disposition, and has been working in the matter of assisting Uncle Hiram Burdette of South Carolina in the matter of raising money by subscription for the purpose of patenting his improved seed-dropper. Mr. Murr has succeeded in raising considerable money, which will be duly appreciated. Uncle Hiram is an old Confederate veteran and invented this seed-dropper, but not having sufficient funds to secure a patent the people throughout the South are helping him.

An Eye Opener!

Every town in Oklahoma is growing rapidly. New towns are opened every year. They thrive and soon become cities. Economic conditions require this. An investment unique in quick returns, safety and profits realized is The Oklahoma Proposition. Covington, Lucier and Greenup on a long new line of the 'Frisco, are soon to be opened. Lots are now on the market. Uniform price $30 on installments. C. H. Massie, at the Brown House. Don't fail to talk with him.

Notice.
